GIORGIA STRINGHER

ux/ui design student

Hello! I'm Giorgia, a 25 year old student who loves **merging creativity with technology** in every way possible.

My journey began as a child with small video-making projects, and over time, I realized that my greatest passions are **design and coding**.

I keep my creative side sharp with illustration and crafts, such as crochet. I also enjoy walking in the mountains and occasionally going for a run.
